Hi Russ:

I just wanted a very short call, not technical. The time for tomorrow December 3, 2014 at 11:30 AM eastern does not work for me, I am in my way to work at that time.

Once you receive and review the Approval, I want to have a conference call with you and Leo to go over the Approval together and answer questions that you and Leo may have on the same. After signed, I will transmit the Approval via email and will request your availability for a conference call within two or three days after you receive the Approval.

Thank you.

Sincerely,
Carmen

Carmen D. Santos

Carmen, Leo and I are available until 130 pacific time this afternoon. That doesn't leave much time for today. Leo is not available tomorrow, but I am. I can suggest a call at 1130 am eastern tomorrow.

Regards, Russ

Hello Russ:

Thank you for your patience.

Are you available for a call today or tomorrow? Please let me know your availability on both days.

Sincerely,
Carmen

Hello Russ:

Yesterday was a Federal holiday and EPA offices were closed.

By the end of the week, I will send the approval to my management for review. A signed approval will be mailed to you by mid next week.

Thank you for your courtesies and patience.

Sincerely,
Carmen

Russ, I am aware of your managements concerns. Carmen has provided me with a draft approval letter for your site. She is modifying it as we speak. However, due to the PCB situation at Malibu High School, we are having a difficult time getting to other priorities. Carmen and I have discussed the situation and believe we can get the final approval to you by November 5, if not earlier.

Please let me know if this works for you. Thanks.

Hello Russ:

Thank you for your follow up note to which I have responded in a voice message that I left for you. All my projects are going through the same situation due to high priority work that had to be completed. That situation is now changing since we are almost done with that high priority work. I will be able to dedicate my time to complete the revisions that I had started to the draft approval, finalize it and get it signed within 2 weeks at latest.

I completely understand that you need to respond to others in your organization on the status of the former Westinghouse facility in Compton, California. You may contact my manager Steve Armann regarding the postponement of the PCB cleanup approval that we are trying to issue to CBS for that facility.

Thank you for your courtesies, understanding, and great patience.

Sincerely,
Carmen

Carmen, any update? I hope you understand that I have to justify to my boss why I can't get this job started. They will want to know why I haven't raised this to a management level within EPA. Accordingly, please provide the contact information for your supervisor.

Thanx
Russ

Ok, but we need to get this going soon. If we need to discuss your priorities with the powers that be, we can do that to.
We look forward to an approval.
Thanks
Russ

Hello Russ:

I am working on revisions to the draft approval. Including your project, all of my other projects are equally impacted by other high priority work. I cannot apologize enough for not been able to get this approval to you sooner. I am trying to get it signed at the end of the week.

Thank you for your courtesies and patience.

Sincerely,
Carmen
